

My Care Record enables health and care professionals to access information about you to improve your care.

Providing you with

Better co-ordinated and seamless care

Less paperwork and less repetition

More time to spend on clinical care

Quicker diagnosis and treatment

More accurate prescriptions

Fewer unnecessary clinical tests

Better health and care planning

What is *My Care Record*?

***My Care Record* is an approach to improving care by joining up health and care information.**

Wherever possible, health and care professionals will be able to access your records from other services when it is needed for your care.

For example, a hospital doctor, community nurse, or social worker involved in your care could view the information they need from your GP record.
